

# Top Quality

Remanufactured

# MICR

# Laser Cartridge

Customized raw materials  
from top-tier toner supplier

Remanufactured by  
STMC certified plant

High reflection rate of  
magnetism up to 120%

REACH and RoHS compliant  
and IECQ QC080000 certified

Competitive price

## What's MICR?

MICR (Magnetic Ink Character Recognition) is a character recognition technology adopted initially by the banking industry to facilitate the automated processing of checks. It helps banks increase both the efficiency and accuracy of check processing. Since the enactment of The Check Clearing for the 21st Century Act in 2004, commercial MICR printing in US has grown tremendously because credit unions, banks and processors are allowed to "truncate" checks early in their clearing process and when they need to have a copy of the check, they will print an Image Replacement Document (IRD), that is a replacement check, with MICR technology. It is estimated that approximately 1 billion such IRDs are printed every year in North America.

The commercial application of MICR technology has also expanded rapidly into other applications including airline, event, concert as well as other ticket printing. It is apparent that more documents which require security and precision will adopt MICR technology in future.

As a leading printer consumable supplier providing one-stop solution, UTec is pleased to offer a new business opportunity for our customer by adding remanufactured MICR toner cartridges to our product portfolio. Only top quality toner will be used guaranteeing a high level of magnetism reflection rate for the printouts. Production is managed by our experienced laser remanufacturing team in a STMC certified plant and under a rigorous quality management system to ensure trouble-free printing for the users.

Product Code	Product Description	Suitable For Use In	Toner Load (gram)	Page Yield (page)	Reflection Rate of Magnetism
TRH356B	REMAN HP 92298A MICR LASER CARTRIDGE	HP LaserJet 5/ 5M/ 5N/ 5SE/ 4/ 4M/ 4M plus/ 4 plus/ APPLE Laserwriter Pro 600/ CANON LBP-1260/ 1260 plus/ 8 IV/ 860/ EXP 270, P430	450	6000	≥80%
