— Since 1981 —

The Leading Printing Consumables Company for over 40+ Years

Our **Innovation**, Your **Success**

INNOVATION

As a leading printing consumables manufacturer with over 40+ years of experience, Print-Rite is dedicated to delivering innovative, patent-safe, high-quality, and eco-friendly products. Our consumables are designed to meet the most rigorous safety standards, ensuring that you can print with confidence. We're also committed to sustainability, offering a range of eco-friendly solutions that help reduce your carbon footprint without sacrificing quality. Trust Print-Rite for all your printing needs, and experience the difference that comes from using safe, reliable, and environmentally responsible products.

1993

Produce the 1st toner cartridge and ink cartridge in China

Pioneering the involvement in laser products domestically, Print-Rite has become one of the largest production and sales bases of printing consumables in Asia.

2002

Establish Ink Manufacturing Center (Zhuhai Print-Rite New Materials Corporation Limited)

Print-Rite New Materials, one of the largest ink suppliers in China, currently has a factory area of nearly 20,000 square meters and a production capacity of over 10,000 tons. Its products are sold in more than 100 countries and regions worldwide.

2022

Established digital B2B E-commerce platform

Multi-dimensional integration and optimization of E-commerce platform to meet the customized and digitalized procurement needs of customers.

**PATENTS
3300+**

1981

Print-Rite was founded in Hong Kong by Arnald Ho

The founding team of Print-Rite in the 1980s marked the beginning of a legendary journey.

1996

Establish Print-Rite Unicorn Image Product Co. Ltd of Zhuhai

Print-Rite started to produce its first batch of patents and became the first domestic printing consumables brand to pass the ISO9002 quality management certification system in the same year.

2015

Starting of 3D Printing Business

Print-Rite CoLiDo 3D printer will make the dream a reality in the next decade with our advanced technology and large R&D team.

2023

As of Feb 2023, the Number of global patents acquires up to 3300+.
